

Sidchrome SCMT15954 - Flex Handle 3/4 Drive 500mm

Product Description

A high quality offset handle that gets the job done. Initially designed for industry professionals, home users have embraced the product, due to its superior craftsmanship and quality.

Made from chrome vanadium steel for reliability, strength and hardness, giving the extra weight you need to adjust stubborn fasteners.

Ideal for

- automotive mechanics where space is limited
- other tight-access situations
- multi-purpose repairs and construction work

Specifications

- Length: 500mm
- Drive 3/8"
