

## Sidchrome SCMT28502 - Multigrip Plier - Slip - 250mm

### Product Description

---

The sturdy metal frame and tips are double heat-treated for high wear resistance (HRC 60/62), and the handles are resistant to corrosive elements including petrol, acetone, chloroethene and Skydrol.

With a jaw capacity of 44mm in the fully open, parallel position, and slip joints allowing 7 pivot positions, these pliers are ideal for use in confined spaces.

#### Features

- Manufactured to ISO, DIN & NF ISO 8976: meeting the highest global standards
- Unique spatula-shaped pressure area: for absolute maximum ergonomic ease
- 7 pivot positions: to easily access confined spaces
- Corrosion and chemical resistant: for use in industrial conditions

#### Specifications

- Size: 250mm
- Jaw capacity: 44mm
- Materials: chrome vanadium steel with chrome plating
