

## Moore & Wright MW-110-15DAS - Digital Caliper - 150mm/6" Absolute

### Product Description

---

- Caliper Digitronic Absolute 0-150mm/0-6"
- True Absolute function
- Keeps track of reference setting even when turned off
- DIN 862
- The Absolute feature means there is no need to Zero the system when turning on. The Zero position will remain in the caliper even after being turned off.
- The advantage of this is that the user can be sure they are working from the absolute origin and therefore all measurements are set from the same origin point.
- This decreases the possibility of a measurement error.
