

Teng 4004IQ - Adjustable Wrench - 10" With Scale

Product Description

- Length: 255mm / 10"
- Capacity: 33mm / 1-1/4"
- H: 29.5mm, W: 72mm
- ISO norm: 320Nm
- Weight: 440g
- Industrial adjustable wrenches made of chrome vanadium.
- Two component grip handle. With scale.
- Exceeding internal standards ISO 6787-1982, ASME B. 107.8M-1996, BS 6333-1995, JIS B4604-1976.
- The 15° jaw allows the wrench to be used in narrow areas as only 30° turning is needed. The wider jaw opening increases the range of bolt sizes to be used on.
- Non protruding on the moveable jaw end gives better action when space is limited.
- Phosphate finish.
