

## Teng 4002IQ - Adjustable Wrench - 6"

### Product Description

---

- Length: 157mm / 6"
- Capacity: 24mm / 15/16"
- H: 20.0mm, W: 52mm
- ISO norm: 85Nm
- Weight: 140g
- Industrial adjustable wrenches made of chrome vanadium.
- Two component grip handle. With scale.
- Exceeding internal standards ISO 6787-1982, ASME B. 107.8M-1996, BS 6333-1995, JIS B4604-1976.
- The 15° jaw allows the wrench to be used in narrow areas as only 30° turning is needed. The wider jaw opening increases the range of bolt sizes to be used on.
- Non protruding on the moveable jaw end gives better action when space is limited.
- Phosphate finish.
