

Teng 4006IQ - Adjustable Wrench - 15"

Product Description

- Length: 380mm / 15"
- Capacity: 50mm / 1-15/16"
- H: 44.7mm, W: 108mm
- ISO norm: 920Nm
- Weight: 1200g
- Industrial adjustable wrenches made of chrome vanadium.
- Two component grip handle. With scale.
- Exceeding internal standards ISO 6787-1982, ASME B. 107.8M-1996, BS 6333-1995, JIS B4604-1976.
- The 15° jaw allows the wrench to be used in narrow areas as only 30° turning is needed. The wider jaw opening increases the range of bolt sizes to be used on.
- Non protruding on the moveable jaw end gives better action when space is limited.
- Phosphate finish.
