

Wacker BTS635S - Power Cutter 14" 85cc With GP Blade

Product Description

The gasoline cut-off saws of the BTS range are your ideal companions on site. They are extremely durable and robust thanks to high quality manufacturing standards of their individual components. The design is perfectly balanced, making for easy and intuitive operation of the device. The air-cooled two-cycle engine has high torque with reliable power transmission. This ensures the first-class cutting performance of the BTS range and they remain easily within all specified emission limits.

Features and Benefits

- The 3-Stage Air Filter System
 - The pulled in air passes first through the cyclone filter where the majority of dirt particles are already removed. This is followed by the foam material prefilter. The pre-cleansed air only meets the main filter at the end of the process. This results in an increase in air filter service life.
- The Soft-Start: No Effort Recoil Starter
 - An innovative mechanism allows the user to start the device with minimal effort. Less strenuous and faster.

Specifications

- Dimensions (L x W x H): 825 x 315 x 420mm
- Weight: 11.3kg
- Blade Diameter Max: 350mm
- Blade Diameter Min: 300mm
- Range: 4.5mm
- Blade Arbor: 25.4mm
- RPM (max): 4,240 rpm
- Cutting Depth Max: 128mm
- Engine / Motor: Single-Cylinder Two Stroke Petrol Engine
- Displacement: 86cc
- Engine Performance: 4.3 kW
- Fuel Consumption: 2.3 l/h
- Tank Capacity: 1.1L
- Fuel/Oil Mixture: 50:1
