

Kincrome KP1202 - Electric Lifting Hoist 400-800kg

Product Description

- 1300W induction motor is quiet to operate and requires no servicing
- Heavy duty 5mm braided steel cable for safe hoisting applications
- Auto stop height lever automatically stops the hoist when the hook reaches maximum height
- Max cable length lever automatically stops the hoist when the maximum hoisting cable length has unwound from the hoist spool
- Heavy duty steel construction provides longevity of your hoist
- Dual lifting weight capacity enables multiple lifting applications
 - 400KG with the single steel cable configuration
 - 800KG when configured with dual steel cables & the additional pulley assembly
- 12m & 6m max lifting distances depending on lifting set up configuration
 - 12m when used in the single steel cable configuration
 - 6m when configured with dual steel cables & the additional pulley assembly
- Dual lifting speed depending on lifting set up configuration
 - 9m/min when configured with the single steel cable
 - 4.5m/min when configured with dual steel cables & the additional pulley assembly
- Motor: 1300W
- Capacity: 400KG (Single Cable) 800KG (Dual Cable)
- Lift Height: 12M (Single Cable) 6M (Dual Cable)
- Speed: 9M/Min (Single Cable) 4.5M/Min (Dual Cable)
