

## Black Rat GC400 - Compressor 12V 150 PSI 85 Lpm

### Product Description

#### Features

- Backed by a 12 month manufacturer warranty!
- Double the pump - twice the grunt!
- Twin cylinders deliver more air when you need it.
- Pumps out a whopping 85 litres per minute (50 litres/min @ 30 psi)
- Inflates 4x4 tyres (10R.15) from 15psi to 32psi in approx 1 minute and then continues to do so for 5 of your mate's vehicles as well, before there is a chance of the thermal shut down switch kicking in.
- Complete with strong carry bag, long power lead and snap on recoil air hose with dual calibrated gauge.
- Soft grip anatomic handle
- Strong storage bag with dual compartments
- Built-in tyre deflation feature
- Snap on coiled air hose with chrome metal Kpa/psi gauge. Precise fit screw-on tyre valve fitting
- Automatic built in thermal overload cut-off switch protects the motor from damage through overheating
- Powerful .25hp permanent magnet motor drawing 15-30 amps
- Rubber feet mounting helps to prevent excessive vibration
- Stainless steel valves with high performance PTFE piston rings. Cast iron air pump casing with cooling fins for quick heat dissipation and efficient operation
- Heavy duty power lead with clamps and in-built 30amp inline fuse

#### Specifications

- Air Flow: 85L per minute (50L Per minute @30PSI)
- Voltage:13.8V
- Amps: 30A
- Working pressure: 150psi
- Operating Cycles: 40 Mins @ 40psi at 24C
- Stainless steel valves
- Hi performance PTFE piston rings
- Cast iron air pump casing
- In line 30Amp fuse
- .25HP Permanent magnet motor
- Thermal overload cut off
- Built in tyre deflator
- Rubber feet to help prevent vibration
- Multiple cooling fins for better heat dissipation
- 6 Metre coiled air hose and pressure gauge
- Sports ball and air mattress connectors
- Heavy Duty canvas carry bag included
