

## Kincrome KP1461 - Battery Load Tester 12v <500A

### Product Description

---

- Test 12V DC Lead Acid batteries, alternators, regulators & starters
- Test batteries up to 160Ah/1000CCA
- 500 Amp adjustable load
- Colour coded display meters
- Measurements: 310 x 280 x 172MM
- Weight: 3.57KG
- Battery Test Capacity: 12V DC Lead Acid batteries, alternators, regulators & starters
- Load Test Capacity: 0 - 500 AMPS @ 12V DC
- Amps Capacity: Up to 160Ah/1000CCA (cold cranking Amps)
- Amps Setting: 500 Amps (Adjustable)
- Voltage Range: 0-16V DC (MAX)
- Voltage Accuracy: +/- 0.1V DC
- Test Cycle: 20 Seconds (MAX) 2 Minutes Cool Down - Per Test
- Safety: Test buzzer after 15 seconds (Remove leads when buzzer sounds)
