

Kincrome K8109 - Heavy Duty Workshop Stool

Product Description

- Perfect for use in the shed, bar, factory, warehouse and workshops, the Heavy Duty Workshop Stool includes a range of features.
- Featuring a full 360° swivel mechanism, the Heavy Duty Workshop Stool features a patented, heavy duty swivel mechanism, giving the user, trouble free use for the lifetime of the stool. The Heavy Duty Workshop Stool not only looks great, it is strong. The stool features a double ring 1" chromed steel frame, this stool is SGS tested and certified, to hold a whopping 156kg!!
- Another great feature is its removable heavy duty back rest! Allowing you to customise your workshop stool to suit your needs! This backrest is strong with a 1.4mm thick steel tube.
- Heavy Duty Workshop Stool is covered with commercial grade vinyl, to survive even the most harsh working environments and a thick fire proof foam padding for extra durability, quality and comfort!
