

Josco 153M - Brush Cup Cr 75xm 0.30mm

Product Description

- Diameter: 75mm
- Thread: Multi-Thread (M10 & M14)
- Material Type: HD Steel Wire
- Maximum RPM: 12,000
- Josco's 75mm Multi-Thread Crimped Cup Brush is ideal for surface preparation and removal of paint and rust.
- The crimped wire is suitable for light surface treatment, flexible brushing and deburring applications.
- It is also fitted with a Quick Change Multi-Thread, which allows for quick and simple fitting of the product onto all angle grinders.
- HD steel wire is best suited for application on steel and iron, but also yields great results on brass, plastic and wood.
