

## Teng TEX1238 - Torque Wrench Set 2 Piece 1/2 & 3/8" Drive

### Product Description

---

- 2 piece set containing 1/2" drive and 3/8" drive angular gauge torque wrenches covering 20-210Nm (15-150 ft/lb) in total.
- The set is supplied in a unique Teng Tools drawer width TTX tray and can be used either on it's own or as part of the Teng Tools TC control system.
- The tray features a removable hinged click lock lid and dove tail joints which enable different TC trays to be locked together and used as trays in Teng Tools tool boxes and roller cabinets.
- The tools are held in place using the Teng Tools two colour pre-cut EVA foam which has been computer milled to house each specific tool.
- The top layer of the foam is black and the bottom layer is red so that as soon as a tool is taken out, the shape of the tool is clearly visible.
- The EVA foam is also etched with the size or description of the tool next to it's position so that if a tool is missing not only can the space be clearly seen but the missing tool can be identified quickly. (560x110x40mm).
