

## Milwaukee M18ONEIWF12-0 - 18V Brushless One-Key 1/2" (Friction Ring) Impact Wrench (Tool Only)

### Product Description

The M18 FUEL™ 1/2" Compact Impact Wrench is the Most Powerful tool in its class, delivering up to 220 ft-lbs of torque in a compact design. The POWERSTATE™ Brushless Motor not only provides unmatched power, but also greater efficiency, delivering up to 25% more run-time than the leading competitors. REDLINK PLUS™ Intelligence is the most advanced electronic system on the market, preventing damage to the tool and battery caused by overloading or overheating. REDLITHIUM™ Batteries deliver more work per charge and more work over the life of the pack than competitive batteries on the market.

Compatible with ONE-KEY™, this is the industry's first Impact Wrench that wirelessly connects to a smart phone to Customise, Track and Manage a tool's performance and location. Unlimited Tool Customisation allows you to connect to the tool and access predetermined set-ups for specific fasteners and materials, or have complete control over output speed and power for the specific application at hand. Once the desired output performance is reached, the custom profile is then saved to the memory of the tool and the connection to the smart phone is no longer necessary. The tool's memory supports up to 4 custom profiles that can be easily accessed with the touch of a button on the tool. Your custom profiles are also saved in the cloud so that they can be accessed at any time.

Integrated Tool Tracking, also available through ONE-KEY™, provides full visibility to how and where tools are being used across your network of jobs and users. The app will track all ONE-KEY™ compatible devices within 30m range of your phone. By building the functionality into the tool, not the battery, all devices are trackable even if the battery is not charged or on the tool. The app will automatically keep records of the last time a tool was within range of the app, allowing you to pinpoint missing tools quicker and increase accountability of your crew. If you're having trouble locating a lost tool, expand your search with the help of anybody with the ONE-KEY™ app. By opting in, when any phone with the app comes within 30m of your tool, you will receive an updated location.

### Features

- REDLINK™ PLUS Electronic Intelligence enables advanced communication between your batteries and tools, allowing for unmatched levels of performance, protection, and productivity.
- The MILWAUKEE® REDLITHIUM™-ION Battery Pack is the most durable pack on the market delivering more run-time, power and longer battery life.
- Complete customisation via ONE-KEY™ app to tune the tool to your needs
- Easily toggle between up to four custom performance profiles that can be saved to the memory of the tool
- Control speed, torque, start and end speeds and LED
- Configure to any application choosing optimum tool settings for repeatable precision

### Specifications

- Platform: M18 FUEL™ / ONE-KEY™
- Voltage: 18V
- Type: Cordless
- Anvil Type: Friction Ring
- Anvil Size: 1/2"
- Fastening Torque: 300Nm
- IPM: 0-2400/ 2600/ 3200/ 2600
- No Load RPM: 0-1700/ 2000/ 2500/ 2000
- Drive Control: 4 modes w/ Auto-Shut-Off Mode

- Battery: M18™ REDLITHIUM™-ION
- LED Light: Yes
- Length: 155mm
- Weight: 1.5Kg
- Warranty: 5 Years
- Torque Level: Compact
