

## Matson MA3400 - Jump Starter 12/24V 3400AMP 1000CCA

### Product Description

---

- Suitable for 12V and 24V systems
- Reverse polarity protection
- 3400 peak Amps (12V) 1700 peak Amps (24V)
- 1000CCA (12V) 500CCA (24V) - (1000 cold cranking amps is a huge output...many car-supermarket starters produce a small fraction of that)
- Dead start function
- Heavy duty cable and fully insulated clamps
- Fitted with 2 ultra high performance sealed AGM (absorbed glass mat) batteries
- Fully enclosed cable and clamps - 160cm 2awg cables
- Recharge from any 240V AC or 12V DC outlet
- 12V DC power outlet with overload protection and protective cover
- Charge level indicator
- Side compartments to protect cables
- Heavy duty professional use
- Comes with 3 stage 2 amp charger to maximise battery life, reduce charging time and can be used on other batteries if needed.
