

## Bossweld 300068H - Welding Rods 316L x 2.4mm x 1.0kg

### Product Description

---

#### Description

- Bossweld 316L x 2.4mm x 1 Kg
- 316L offers excellent resistance to general corrosion from organic & inorganic acids.
- Metal deposits show good resistance to inter-crystalline corrosion & high temps due to low carbon content.
- Suitable for welding 302, 304/304L, 308, 318, 347, 410 & 430 grades of stainless steel.

#### Features

- High quality TIG rod
- Suitable for a range of Stainless steel including: 302, 304, 308, 316, 318, 347, 410 and 410

#### Applications

- Food processing equipment
- Water processing filtration plants
- General stainless steel fabrications

#### Specification

- AWS Specification: A5.9 ER316L
- Industry Specification: A5.9 ER316L
