

## **Bossweld 300241H - Galvanising Bar 6.3mm x 1kg 7 Stick**

### Product Description

---

#### **Description**

- Bossweld Galvanising Bar x 6.3mm x 1 Kg (7 Sticks)
- A lead/tin/zinc alloy which, when applied to a heated base metal, will melt & produce a strong corrosion resistant alloy coating.
- Used after welding on galvanised material resulting in a zinc coating equivalent to hot dip galvanise.

#### **Features**

- Reapplies the Galvanised finish after welding
- Easy to apply
- Reliable

#### **Applications**

- Reapplies the Galvanised finish after welding
- Easy to apply
- Reliable
