

## Bossweld 500046 - Twistlock Electrode Holder 600 Amp

### Product Description

---

#### Description

- Bossweld Twistlock Electrode Holder 600 Amp
- Twistlock electrode holders are the most popular choice of holder, due to their ability to clamp onto electrodes with a very positive screw down action, ensuring optimum current flow to the electrode.

#### Features

- Easy to use 'Twist Lock' electrode holder
- Solid plastic handle for optimum insulation
- Medium impact handle
- Easy to fit welding cable

#### Applications

- Site welding
- General arc welding and fabrication
