

Renegade RIFOLD6-10 - Aluminium Fold Out Dual Purpose Ladder 6/10ft

Product Description

Industrial rated Dual Purpose Ladders are rarely seen at such a low price. These ladders are manufactured to strict Australian Standards AS/NZS 1892.1:1996 with a maximum load rating of 150Kg to give you years of reliable service. Made from high quality aluminium with heavy duty steel rivets and braces ensures ongoing strength and rigidity and these ladders will serve as a step ladder or a straight ladder making them indispensable on a worksite, around the factory and at home. All models in this range are fitted with rubberised feet and ribbed high grip treads for added safety. This 6ft/10ft ladder is 1.725m high in step form and will reach an impressive 3.28m when folded out.
