

General 70070 - 3D Multi-line Laser Green 3DG

Product Description

Features

- The General 3DG features an out-of-level alert to warn the operator if it is outside of its levelling range. The constant pulse mode ensures that it can be used alongside an optional detector when the laser beam is unable to be seen with the naked eye.
- The General 3DG also includes a multi-purpose mount which allows the laser to be mounted to posts, walls and ceiling grinds via the magnetic backing, clamp or screw fixing points.
