

Dewalt DT60811-QZ - SDS Max Drill 18x340x190mm 4 Cutter XLR Max

Product Description

XLR™ (Extreme Life & Reliability) SDS MAX Drill Bits are a premium range produced in DEWALT's German facility. The 140° tip with larger carbide chisel and widened flanks ensure optimum power transmission for maximum drilling feed with reduced vibration. Suitable for use in SDS MAX Drilling Hammers; for drilling extremely hard (reinforced) concrete, masonry, natural and artificial stone.

- 4 Cutter Geometry - More concentric holes (better fixing retention)
- 4 Flute Helix - Best possible drilling penetration & dust removal
- Open Head Design - Fast dust removal
- Maximised Central Core - Durability / power transfer
- Diameter: 18mm
- Length: 340mm
- Working Length: 190mm
