Sidchrome SCMT70451 - Safety Lock Wire (1LB) 0.025"

Product Description

This strong, corrosion resistant safety wire is crafted from aircraft grade stainless steel.

Keep fasteners secure, wire grips or perform countless other tasks around your workshop.

Ideal for

- Securing parts and fasteners at risk of loosening from vibration
- Wiring grips
- Safety wiring

Features

- Easy dispensing: the dispenser ensures wire is easily transported and uncoils cleanly with no risk of tangles
- Aircraft grade steel: prevents corrosion

Specifications

- ASTMA580 non-electrical
- Type: Type 302/304
- Spec: Spec MS20995-C
- Weight: 1 lb (0.45kg) container
- Diameter: 0.025” (.635mm)
