

Sutton D6000600 - Masonry Drill Std 6mm x 100mm

Product Description

Sutton Tools Masonry Drill bits are ideal for use in natural and artificial stone, masonry, brickwork & concrete. The Tungsten Carbide percussion tip with semi-positive profile provides up to 25% faster drilling than comparable product. Also the rolled double spiral flute provides greater dust extraction, for up to three times drill life.

Features

- Tungsten Carbide percussion tip with semi-positive profile for aggressive drilling in hard materials
- Rolled double spiral flute provides greater dust extraction
- Unique brazing process ensures a perfect bond between tip & body
- Parallel shank for rotary hammer & percussion drilling
- Tungsten Carbide cutting edges for high wear resistance
- ISO 14001: Sandblasted finish guarantees zero heavy metals
