

imex 012-I66R - I66R Rotating Laser Horizontal Only Head Only

Product Description

The class leader in economical rotating laser levels, the IMEX i66R incorporates the robust casing and technology of its big brothers in an efficient simple-to-use package. Featuring a huge 400m dia range, rubber sheath protection and heavy duty lighthouse cover for superior shockproof and weatherproofing the i66R is the leader in value for everyday laser levelling.

- Robust construction tough horizontal laser level.
- Self levelling (electronic). 400m range.
- 9Ah lithium-ion battery – approx 40 hour run time.
- USB quick charge port
- Out of level warning light.
- LRX6 Digital Detector in mm reading German mode.
- 60mm Detector reading fine, medium, course setting.
- 30 second set-up time. Place on tripod, press one button and beam begins.
- Fully enclosed laser housing for extra dust and splash proofing.

Specifications

- Self Levelling Range: +/-5°
- Working Distance: 400m Diameter
- Accuracy: 2.0mm @ 30m
- Rotation Speeds: 600rpm
- Waterproof/Shockproof: IP66
- Light Source: Red laser diode, 635nm Class II
- Power: 9 Ah 3.7v lithium-ion
- Detector: LRX6 Double Sided
- Working time – continuous use: 40 hours approx.
- Charging Time: 4 hours in unit or removed from unit
- USBC Charging: Yes; including 12v car charger
- High Wind Sensitivity Re-set: No
- Remote Control: No
- Weight – Unit Only: 2.48kg
- Detector – German Made: LRX6 Double Sided
- Detector – Pick Up: 60mm +30mm to – 30mm
- Detector Reading: Fine – 1.0mm | Medium – 2.0mm | Course – 5.0mm
- Detector Power: 1-AA > 50 hrs run

Includes

- Unit
- LRX6 Detector
- USB cable
- 9.0 Ah Lithium battery
- Car charger
- target plate
- hard carry case
