

Teng TT8012 - Combination Spanner Set 12 Piece

Product Description

- 12 piece metric combination spanner set featuring a typically Teng new design in combination spanners that provides an anti slip on the open end and a hip grip function where the spanner drives on the flank of the fastening rather than the corner.
- The design also provides grip on fastenings with worn or rounded corners.
- The combination of these features allow for a much better grip with less risk of damage to fastenings.
- The set is supplied in a unique Teng Tools TC tray and can be used either on it's own or as part of the Teng Tools TC control system.
- The tray features a removable hinged click lock lid and dove tail joints which enable different TC trays to be locked together and used as trays in Teng Tools tool boxes and roller cabinets.
- All of the tools in the set have their own individual place so lost tools can easily be identified. (265x142x50mm).
- Sizes: 8, 9, 10, 11, 12, 13, 14, 15, 16, 17, 18, 19mm
