

Stop the Drops H01110 - Tool Bucket/Lifting Bucket

Product Description

The STOP the DROPS lifting bucket is loaded with features that help prevent dropped objects.

The multi reinforced design makes this conceivably one of the toughest lifting buckets in the world in this class, and the 'locking' velcro closure system protects against accidental spills on-site.

Specifications

- 113KG SWL - The massive 113kg SWL is fully verified and certified.
- 'LOCKING' CLOSURE SYSTEM - Heavy duty velcro closure with 'locking' feature protects against accidental spills.
- PUNCTURE RESISTANT - A composite insert in the base protects against punctures.
- BUILT IN TOOL CONNECTION POINTS - Built in tool connection points inside the bucket enable tools to be tethered directly to the inside of each unit.
- EXTRA HD VINYL - the extra heavy duty vinyl used in the construction of these buckets is designed to last in the harshest of construction environments.
- AUTO-LOCKING LIFTING KARABINER - the auto-locking karabiner, provides extra security and peace of mind.
