

HIKOKI 36VSTARTERPACK1Z - 18V/36V Starter Kit - 1 x 18V/36V-5.0Ah/2.5Ah Battery & Fast Charger

Product Description

Includes

- BSL36A18 - 18V 5.0Ah / 36V 2.5Ah MultiVolt Battery
- UC18YSL3 - Rapid Charger

BSL36A18 - 18V 5.0Ah / 36V 2.5Ah MultiVolt Battery

- Experience less weight and more run time with HIKOKI Lithium ion batteries.
- Weighing up to 40% less than their Ni-Cd and Ni-MH counterparts, these lightweight batteries make for lighter tools with greater operator portability.
- Each Lithium ion cell can store considerably more energy than older style battery technology giving you considerably increased run time. They're good for the job and for your business.

UC18YSL3 - Rapid Charger

- Cooling feature helps cool battery during charging or before charging commences to prevent battery overheating ensuring extended battery life
- Preventative mechanism against charging a hot battery to extend battery life
- 3 way overcharge protection system to ensure battery is not overcharged
- Two colour indicator light to indicate what stage of charging the battery is in
- Capable of charging 14.4V and 18V slide style Li-ion batteries
