

Milwaukee 48228250 - Jobsite Cooler

Product Description

Milwaukee Tool's jobsite cooler is specifically designed to be durable enough to withstand tough jobsite conditions. The cooler utilises double insulation and a food-grade leak proof liner to keep ice cold for 24 hours without leaking. Additionally, Milwaukee constructed the cooler with 1680D ballistic material base and heavy duty metal zippers for a longer life. A tape measure clip with a bottle opener provides ultimate versatility. Lastly, Milwaukee implemented a tech pocket and dry storage compartment to make this cooler a versatile jobsite storage solution.
