

Kincrome K5390 - Folding Hex Key Set 8 Piece Metric

Product Description

The Kincrome Folding Hex & TORX Key range offers an attractive and cost effective solution for tradespeople and DIY users that need to keep a variety of popular high-quality hex keys nearby.

Each hex key is manufactured from Chrome Vanadium Steel (Cr-V) hardened and chrome plated with a powder coat finish for rust protection. This all-in-one unit is complete with handy folding storage for an extra level of organisation and ease of use. The durable folding storage includes moulded grip sections for increased grip and a chrome plated centre plate for increased rigidity and durability, allowing for increased torque.

- Cr-V - Chrome Vanadium Steel
- Sizes: 1.5, 2, 2.5, 3, 4, 5, 5.5, 6
- Compact For Easy Transportation
- Centre Plate Increases Torque
