

Makita B-16879 - Blue Mak Saw Blade 85mm 20T

Product Description

Suits HS301DZ

Features

- BlueMak coating resists "pitch" build up, eliminates corrosion and prevents friction.
- Fully hardened and tensioned blades absorb impact and remain flat and true
- High grade Tungsten Carbide with low wear rate for extended blade life
- Precision honed for a sharper, longer, lasting edge
- Thin kerf for less waste and reduced feed pressure

Specifications

- Dimensions: 85 x 15 x 20T
- Kerf: 1mm
- Rake: 10°
- Max RPM: 2240
- Tooth Shape: ATB
