

## Alemlube 52114 - Car Tyre Inflator 240V Wall Mount

### Product Description

---

#### 240V Automatic Tyre Inflator

- The 52114 Alemlube 240V automatic tyre inflator is highly accurate, reliable and wall mountable with a clear LED digital display.
- Modern design and robust build qualities set this electronic pressure preset unit apart from lesser featured devices on the market and the auto-start inflation system provides a real operational benefit.
- Accurate inflation can be achieved with the supplied 10 metre air hose and tyre chuck and with other hose lengths of up to 25 metres. Additional diagnostics provide essential information to assist efficient workshop practices.
- A true high performer for today's fast paced service centres, the 52114 can be used for inflation, deflation and tyre pressure testing functions.
- 240V operation
- Electronic pressure preset
- Auto-start inflation
- Clear digital display for fast repeatable accuracy
- Supplied standard with 10m of air hose and tyre chuck
- Accurate inflation with up to 25m hose lengths
- Reading accuracy:  $\pm 1\text{psi}/0.7\text{bar}$
- Maximum pressure: 145psi/10bar
- Maximum inflation pressure: 101psi/7bar
- Inflation speed: 400L/min @ 10bar
- Dimensions: 135 x 240 x 76mm
- Weight: 1.44kg
