

Alemlube 501A - 205L Rotary Drum Pump

Product Description

Rotary Drum Pump - Diesel, Oil, Petrol

- The 501A rotary drum pump is suitable for the transfer of oil, diesel and petrol from 60L and 205L drums and bulk tanks. Its cast alloy body construction ensures a long working life and smooth operation.
- The 501A rotary drum pump vanes make it suitable for the transfer of unleaded and leaded petrol and can syphon fuels and lubes in reverse. The 501A comes complete with 2.2m of anti static fuel hose, spout, spout holster and 2" BSP bung adaptor & delivers up to 18 L/min or 0.26L per rotation when pumping diesel fuel.
- Zinc alloy impellers make the pump suitable for the transfer of diesel, petrol, kerosene, unleaded petrol and low viscosity oils
- Delivery rates of up to 18 L/min or 0.26L per rotation
- Cast alloy body construction ensures a long working life and smooth operation
- 4 chamber pump body primes quickly and easily
- Can syphon and transfer fuels and lubes in reverse
- Includes 2.2m of antistatic hose, bung adaptor, rubber gasket, four chamber rotor assembly, spout and spout holster
