

Festool 499901 - Systainer Storage Box

Product Description

Safe and systematic the systainer storage box is great for storing sundries such as nails, dowels, screws, saw blades and screwdriver and drill bits neat, tidily and always close at hand. The transparent cover and swivelling top compartments provide a clear overview of the contents of the lid. The storage box can be configured individually using a selection of plastic containers in different sizes.

Features

- Faster, Easier, Better - Searching for tools, drill bits, screws becomes a thing of the past. Custom inserts are designed to hold Festool tools, accessories, and consumables to help you quickly find the items you need to complete a task.
- Flexible System - Latch your Systainer to a dust extractor, rolling base or trolley for easy transport, moving tools, accessories and extractor in one trip from the car to site.
- Customise Your Systainer - Design your own personalised label for your Systainer T-LOC.
- First Impressions Count - Professionals are well organised and neatly presented. Festool's storage solutions provide a robust system for organising, protecting and transporting power tools, accessories, and consumables.
