

Savage 75-S2 - Hole Saw Set

Product Description

11 piece tungsten carbide tipped hole saw set - metric

- 20, 25, 32, 35, 40, 51, 54, 65 & 80mm TCT hole saws
- 3/8" hex shank mandrel
- 7/16" hex shank mandrel

Savage Tungsten Carbide Tipped (TCT) Hole Saws feature abrasion resistant tungsten carbide teeth which will cut materials that quickly dull normal Hole Saws.

- Savage TCT hole saws feature premium quality brazed carbide teeth for extreme performance and durability
- 60mm deep cut body
- Save hole saw mandrels include a HSS pilot drill which is suitable for use in a wide range of materials
- Extra deep longitudinal slot for improved slug removal
- Heavy duty multi-hole backing plate ensures optimal mandrel engagement

TCT Hole Saws are ideal for cutting a wide range of materials including:

- Timber
- Composite Boards including MDF & Particle Board
- Wood Laminates & Plywood
- Fibre Cement Sheeting including Blue Board, Tile Underlay & Cladding
- PVC Glass Fibre Reinforced Plastics
- Insulation
- Plasterboard
