

Dewalt DCD470N-XJ - 54V Flexvolt Brushless High Torque Angle Drill (Tool Only)

Product Description

The DCD470N-XJ is DEWALT's most powerful cordless drill ever, featuring a 54V BRUSHLESS motor delivering increased power and runtime, a 2 speed gearbox and variable speed trigger for maximum control in all applications. E-Clutch is a Perform and Protect™ feature that detects reactionary torque caused by a bind-up or stall and reduces speed to a manageable level until control is regained. The DEWALT® Perform and Protect™ line of power tools is designed to provide a high level of one or more of the following: control, dust containment, or low vibration, without sacrificing performance. Ergonomic top handle and 2 position side handle for increased safety, leverage and control. The low profile head allows for use in compact spaces such as between joists.

Features

- Our most powerful cordless drill ever! 269 Nm of torque delivers a maximum drilling capacity of 158 mm.
- Efficient BRUSHLESS motor and high capacity 54V XR FLEXVOLT battery ensure unrivalled runtime.
- Large 2 speed selector allows the user to easily select the correct speed for the required application.
- The E-Clutch uses gyroscopic technology to protect the user from injury in bind-up situations.
- Low head profile for better access in tight spaces
- LED located in handle, allowing work area to be lit even when using large accessories

Specifications

- 0-400/1320RPM
- 269Nm of Max Torque
- 13mm All Metal Keyed Chuck
