

Kincrome K28207 - Deep Impact Socket Set 14 Piece 1/2" Drive - Imperial

Product Description

Features

Kincrome's range of impact sockets are manufactured from Chrome Molybdenum (Cr-Mo) and feature a black phosphate finish for superior corrosion protection, laser etching for easy drive size identification and Peripheral Drive™ technology. Peripheral Drive™ provides greater torque by relocating the load to the flat sides of a fastener, this allows for greater surface area contact and prevents "rounding off" of fasteners.

Includes
