

Crescent **CHR10** - Hand Riveter

Product Description

The Crescent Industrial Hand Riveter is designed to be Trusted by the Trades. Its compact design requires less force to use and the sturdy industrial grade aluminum body and induction hardened jaws are designed to withstand the rigorous requirements of the professional user. The set includes 4 jaw sizes (2.4mm, 3.2mm, 4.0mm, 4.8mm) and 120 rivets. The standard working stroke is 7mm and is adjustable to either reduce the length of squeeze required or to reduce the force required per squeeze. The Crescent Industrial Hand Riveter is suitable for both aluminum and stainless steel rivets.

- Aluminium alloy body with heat treated carbon steel handle
- Tool free stroke adjustment and jaw disassembly
- 4 x included nosepieces 2.4mm, 3.2mm, 4.0mm, 4.8mm
- Working stroke is 7mm
