

## Powerline 50165 - A6 Rotary Grade Laser Red Beam with Wireless Remote Control

### Product Description

---

The Powerline A6 is a motorised levelling rotary laser level with a red laser beam that incorporates a simple operation at the press of a button. The Powerline A6 is capable of horizontal and vertical levelling with dual automatic dial-in grade capability (0.00 %).

The included millimetre detector provides an even greater level of precision when locating the laser beam, this detector allows you to easily see the remaining distance until the level position is reached.

The remote control is wireless with an LCD display screen to show active grades or operation that can be adjusted up to 80m from the laser level.

- Red laser beam
- Advanced motorised levelling technology
- Horizontal & vertical operation
- Automatic dial-in dual grade capable
- Manual dual grade capable
- 0.00% display screen
- Wireless remote control (80m range)
- Scanning mode
- Speed control
- Tilt alarm

### Specifications

- Accuracy:  $\pm 1.5$  mm at 30 m
- Laser class: 2 Red
- Operating range: 500 m diameter
- Levelling range:  $\pm 5^\circ$  / 9 %
- IP rating: 65
- Battery type: Rechargeable (NiMH) and Alkaline
- Battery life: 20 hours
- Warranty: 6 years

### Includes

- Powerline A6
- Millimetre detector and clamp
- Remote control
- Laser target
- Laser glasses
- Indoor battery charger
- Rechargeable battery pack
- Alkaline battery pack
- Carry case
