

## Weldclass KC-J1891 - Contour Dial Angle Flange Level #20

### Product Description

---

#### Features

- Versatile tool that can be used as a dial degree utility level or, with attachments, for two-holing flange alignment

#### Specifications

- Fitted with a threaded, self aligning conical spacer and conical nut and bolt units for fastening the Level to a pipe flange
- One of the nut and bolt units is stationary, while the other slides up to 140mm along a slot in the level to accommodate various flange bolt hole spacings from 50mm to 140mm
- Made of cast aluminum with a protective housing containing an adjustable DSL
- The body of the tool is 12mm (1/2 in) thick with a machined surface
- The level bubble is protected from weld spatter and breakage with a built-in housing
