

Milwaukee M18ONEFHIWF12E-0 - 18V Brushless One-Key Extended Anvil High Torque 1/2" (Friction Ring) Impact Wrench (Tool Only)

Product Description

The M18 FUEL™ 1/2" Extended Anvil High Torque Impact Wrench w/ ONE-KEY™ delivers controlled torque for fastening and up to 1,491Nm of nut-busting torque. Professional tyre technicians can perform faster tyre service without the hassle of pneumatic hoses, compressors, and torque sticks. The cordless impact wrench features four customisable modes, delivering you with unique fastening torque outputs needed to perform tyre service on vehicles such as sedans, light trucks, and box trucks. With up to 1,491Nm of breakaway torque, the controlled torque impact wrench provides you with more than enough power to remove rusted wheel nuts. With ONE-KEY™, you also gain the ability to Customise, track and manage your extended anvil impact wrench.

Features

- Four preset fastening modes quickly get you closer to the target torque of the job at hand, while preventing overtightening with unmatched ONE-KEY™ repeatability
- Enables users to work faster by removing the hassle of pneumatic hoses, compressors, and torque sticks
- POWERSTATE™ Brushless Motor delivers maximum power and long motor life
- REDLINK PLUS™ intelligence prevents damage to the tool and battery due to overloading or overheating
- Premium rubber overmold withstands corrosive materials and provides increased comfort when in use
- ONE-KEY™ compatible: Ability to customise, track and manage tools for increased productivity and investment protection
- LED light to illuminate the work area
