

Milwaukee M18FNCS18GS-0 - 18V Brushless 18Ga Narrow Crown Stapler (Tool Only)

Product Description

The M18 FUEL™ 18GA Narrow Crown Stapler delivers peak productivity, providing users with unmatched stapling performance without the hassle of a compressor and hose. A nitrogen air spring mechanism gives this cordless staple gun the power to consistently sink staples to the proper depth in hard materials, with the ability to adjust to drive staples in soft materials without blowing through. The combination of a POWERSTATE™ Brushless Motor and REDLINK PLUS™ Intelligence provides an unmatched fire rate with zero ramp-up time, keeping users efficient throughout the day. This battery powered narrow crown stapler is compact and lightweight, giving users better access in tight spaces and limiting fatigue throughout the day. The M18 FUEL™ 18GA Narrow Crown Stapler delivers the pneumatic performance that professional carpenters and remodelers expect with the freedom and convenience of a cordless tool. The tool includes two work contact tips and a reversible belt hook.
