

WA Gases CYLD-TRACE-SWAP - Exchange/Refill - D Size Trace Gas 95-5

Product Description

- Trace Gas 95-5 is a non-flammable mixture of Nitrogen 95% and Hydrogen 5% designed for use in leak detection in air conditioning and refrigeration systems and plumbing pipework. Hydrogen is mixed with Nitrogen because of its incredibly small molecule size which allows it to easily escape the smallest leaks.
- Used in conjunction with an electronic leak detector, it will greatly speed up the leak detection process.
