

## Bordo 2007-M1S - Jobber Drill Bright Refill Set 1-6.5mm

### Product Description

---

#### **BORDO METRIC QUICK SILVER M2 HSS JOBBER DRILLS DIN338**

- 118° Split Point (crankshaft point)
- Split point is self centering and reduces the need for end thrust. Friction at workpiece is reduced. 118° point angles are ideal for use in materials such as mild steel and cast iron. The 118° point creates easily controlled chips which are wide and thin.

#### **DRILL BIT SURFACE TREATMENT**

- Bright Finish Jobber Drills have no surface treatment and are supplied in the as-ground condition. These tools are suitable for general purpose use, particularly for non-ferrous applications.

#### **Includes**
