

Milwaukee MXFCP203 - MX Fuel Redlithium CP203 Battery

Product Description

The Milwaukee® MX FUEL™ equipment system goes beyond the limitations of petrol and corded units, utilising the industry's most advanced batteries, motors, and electronics to deliver the best experience for users. This is equipment, redefined. The MX FUEL™ REDLITHIUM™ CP203 Battery is the hardest working and most reliable battery for equipment, suitable for in handheld applications or those where weight and mobility are critical. Featuring superior pack construction, advanced electronics, and performance to ensure optimum performance and pack life for the most demanding applications. REDLINK™ Intelligence provides industry-leading communication between the battery, equipment, and charger to ensure optimum compatibility, battery life, and performance from the equipment. With optimised charge rates based upon the battery type and temperature, the MX FUEL™ REDLITHIUM™ CP203 Battery recharges in 45 minutes to keep users productive on the job site. An onboard battery fuel gauge and integrated carry handle provide added benefit to the user while the protective rubber overmold absorbs shock when the pack is dropped, even when attached to equipment. All MX FUEL™ batteries fit all MX FUEL™ equipment.

Features

- Provides the user with the power needed for jobs where weight and mobility are critical
- Fully charges within 45 minutes
- REDLINK™ Intelligence provides industry-leading communication between battery, equipment, and chargers
- World leading cell technology ensures optimum performance and life for the most demanding applications
- Integrated carry handle
- Onboard fuel gauge
- Protective rubber overmold with increased rubber in impact zones absorbs shock

Specifications

- AMP HOUR: 3.0Ah
- WARRANTY: 2 Years
- WEIGHT: 2.7kg
- PLATFORM: nMX FUEL™
- FUEL GAUGE: Yes
- REDLINK™ INTELLIGENCE: Yes
