

Milwaukee MXFXC406 - MX Fuel Redlithium XC406 Battery

Product Description

The Milwaukee® MX FUEL™ equipment system goes beyond the limitations of petrol and corded units, utilising the industry's most advanced batteries, motors, and electronics to deliver the best experience for users. This is equipment, redefined. The MX FUEL™ REDLITHIUM™ XC406 Battery is the hardest working and most reliable battery for equipment, providing maximum power and runtime. Featuring superior pack construction, advanced electronics, and performance to ensure optimum performance and pack life for the most demanding applications. REDLINK™ Intelligence provides industry-leading communication between the battery, equipment, and charger to ensure optimum compatibility, battery life, and performance from the equipment. With optimised charge rates based upon the battery type and temperature, the MX FUEL™ REDLITHIUM™ XC406 Battery recharges in 90 minutes to keep users productive on the job site. An onboard battery fuel gauge and integrated carry handle provide added benefit to the user while the protective rubber overmold absorbs shock when the pack is dropped, even when attached to equipment. The MX FUEL™ REDLITHIUM™ XC406 Battery is ONE-KEY™ compatible, allowing users to track and manage the battery, and all MX FUEL™ batteries fit all MX FUEL™ equipment.

Features

- Compact profile, making the MX FUEL™ Equipment System the lightest and most powerful in the industry
- Fully charges within 90 minutes
- REDLINK™ Intelligence provides industry-leading communication between battery, equipment, and chargers
- World leading cell technology ensures optimum performance and life for the most demanding applications
- Integrated carry handle
- Onboard fuel gauge
- Protective rubber overmold with increased rubber in impact zones absorbs shock

Specifications

- AMP HOUR: 6.0Ah
- WARRANTY: 2 Years

- WEIGHT: 4.8kg
- PLATFORM: MX FUEL™
- FUEL GAUGE: Yes
- REDLINK™ INTELLIGENCE: Yes
