

Milwaukee M12SAL-0 - 12V Stand Area Light (Tool Only)

Product Description

MORE PORTABLE. ALL-DAY OPERATION - The M12 Stand Area Light has the lightest weight in its class and a 45% smaller footprint than M18 Stand Lights that allows it to be easily carried and setup in the most confined spaces. The M12SAL-0 extends up to 172cm to provide 1,400 Lumens of TRUEVIEW High Definition Output on high mode and 700 Lumens on low mode. When powered by an M12 REDLITHIUM-ION 6.0Ah battery pack, it runs up to 10 hours on a single charge. After deployment, the M12SAL-0 is supported by impact-resistant, reinforced legs that form a compact base with a low center of gravity to help survive any job site.

Features

- 1,400 Lumens of TRUEVIEW™ High Definition Output
- Up to 10 hours of Runtime on M12™ 6.0Ah Battery
- Brighter than 250w Halogen
- Sets Up in Under 5 Seconds with Over 1700mm of Extension
- 45% More Compact Footprint than M18™ Stand Lights
- Pivots 270° Horizontally
