

Kincrome K16126 - 2-Nozzle Sprayer Boom Kit

Product Description

The Kincrome range of 12V Sprayer Boom & Broadcast Kits offer a cost effective solution for you to upgrade your sprayer, allowing you to tailor your sprayer to your specific requirements without replacing the whole sprayer unit.

This 2-nozzle boom kit converts a spot sprayer into a time-saving broadcast sprayer with a 2m spray width. Left/right nozzle control accomodates full broadcast and perimeter spraying capabilities - and the check valves help to prevent nozzle drips.

Boom quickly and easily connects and disconnects from the sprayer for portability and versatility.

Kincrome Boom & Broadcast Kits are all compatible with Roundup® agricultural herbicide.

Features

- Built-in check valves
- Left/right nozzle control accomodates full broadcast and permimeter spraying
- Adjustable brackets for perfect boom height
- Suitable for use with K16006 & K16007
- Not suitable for use with chlorine or other corrosive liquids

Specifications
