

Kincrome K16129 - 1-Nozzle Boomless Sprayer Kit

Product Description

The Kincrome range of 12V Sprayer Boom & Broadcast Kits offer a cost effective solution for you to upgrade your sprayer, allowing you to tailor your sprayer to your specific requirements without replacing the whole sprayer unit.

This single nozzle boomless sprayer kit delivers a wide 4.3m spray width. No boom arms to break and a large droplet size that helps reduce drift.

Quickly and easily connects and disconnects directly from the sprayer and is designed for easy mounting on an ATV rack.

Kincrome Boom & Broadcast Kits are all compatible with Roundup® agricultural herbicide.

Features

- Mounts directly to the sprayer
- Designed for easy mounting on an ATV rack
- Suitable for use with K16006 & K16007
- Not suitable for use with chlorine or other corrosive liquids
