

## WD-40 21002 - White Lithium Grease 300g High Performance

### Product Description

---

Looking for a high-performance lubricant that provides great protection for heavy-duty, metal-to-metal applications?

This High Performance White Lithium Grease spray is a water and heat resistant lubricant spray that can be used outdoors regardless of weather and temperature. And because it's a thick high viscosity, water-resistant formula, it won't drip or run, making it ideal for use on automotive connections such as towbars, gear and brake mechanisms, cables and chains, and CV joints.

This High Performance White Lithium Grease spray:

- Provides great long-term lubrication
- Keeps parts moving smoothly and free of friction and seizing
- Reduces friction and wear
- Lubricates metal to metal applications
- Is water and heat resistant, great for outdoor use
- Offers rust protection

We recommend this High Performance White Lithium Grease for:

- Marine - boat engine, outboard and inboard motors, anchors, chains, shackle bolts
- Industrial - machinery & engine, metal gears
- Farming - tractor, cutter bars on headers
- Transport - trucks, cars, tractors, forklifts
