

## WD-40 21019 - Auto Brake & Parts Cleaner 300g

### Product Description

---

We all know how important it is to keep brakes well-maintained. When brakes and all their associated parts are kept clean, they perform much more smoothly and last longer as well.

If you're looking for a powerful, fast-action cleaner that works well with all of your car's moving parts, WD-40 Automotive Specialist Brake & Parts Cleaner will do the job quickly and easily without leaving residue.

This formula is a fast-drying, super powerful spray that's designed to dissolve grease, oil and dust from brakes and parts. And it works fast, dissolving residual oil, grease and brake fluid in minimal time leave your brakes shiny and clean. Regular use of WD-40 Automotive Specialist Brake & Parts Cleaner can prolong the life of brake discs and pads and help cut out brake noise for a smoother ride.

Use WD-40 Specialist Automotive Brake Cleaner for:

- Clutch and brake assemblies
- Brake discs
- Callipers
- Brake drums
- Brake pads and linings

We all know how important it is to maintain the integrity of your brakes, but don't forget about the rest of your car either. While you're here, why not check out some of our other Specialist Automotive products? They're the best investment you can make in your car.
